About Me

I am a dedicated and creative professional with a strong background in web development and UI/UX design. With experience in freelancing and internships, I have honed my skills in HTML, CSS, JavaScript, SEO , PHP, Wordpress while also gaining valuable insight into user interface and user experience principles. I am passionate about creating visually appealing and user-friendly websites that deliver an exceptional experience.

Experience

Self Wordpress Website (1 year)

I have prior experience managing my own website where I regularly authored blog content using WordPress and successfully obtained AdSense approval. Implemented SEO strategies to improve website visibility and organic traffic, resulting in a significant increase in site visitors.

Freelancing

I have freelanced in HTML, CSS, JavaScript, and Wordpress developing and managing websites for various clients.

UI/UX

I completed an internship in UI/UX at Dream Chaser, where I was responsible for designing their company website.
